Open Call for Fully-funded Master and PhD positions in Pharmacology at UFSC – Florianópolis/Brazil

The internationally recognized Graduate Program in Pharmacology (PPGFMC) at UFSC/Brazil invites applicants for Master and PhD positions. PPGFMC provides a select group of highly motivated students the opportunity for research and graduate education in the biomedical sciences.

Here, our major themes:

Cardiovascular and Metabolism research
Cancer and Immunology
Computational Biology
Neuroscience
Pain research

What we do offer?

Located in an excellent scientific, international and supportive environment (in a beautiful island! - <https://www.floripa-guide.com>) the PPGFMC provides you with:

- Structured Master and PhD programs
- Advanced research training
- Individual supervision from expert scientists
- Travel grants for external courses and conferences
- Close mentoring by faculty
- You pay \$0 tuition!
